

Dear Truffle Lovers!

Welcome to our May newsletter - we hope this newsletter finds you in good health and high spirits!

Winter, and truffle season is nearly upon us. Our first Hunt is scheduled for 9th of June, we are all excited with anticipation!

However, we continue to progress with our regular maintenance works on the farm, one of our top priorities is the health of the Trees and a big part of this as you know, is the water supply.

Because we love a good project, we are underway with the expansion of our initial dam. This expansion project aims to enhance our water storage capacity, thereby safeguarding our water needs for next year and the future.

You can see the growth in the trees from our heavy watering program this summer.

Great work so far Team!
